MEMORANDUM FOR COMMANDERS, DEFENSE CONTRACT MANAGEMENT DISTRICTS  
AQ TEAM CHIEFS

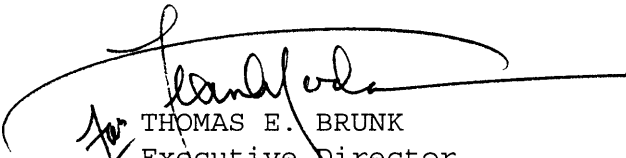

SUBJECT : DCMC Memorandum No: 96-26, PLAS Program Management Center

This is an INFORMATION memorandum, targeted to all DCMC Employees. General Order 04-96 established the DCMC Performance Labor Accounting System (PLAS) Program Management Center as a principal staff element of District West. The Center, located in Chicago, will become the DCMC focal point for all PLAS-related initiatives.

PLAS has the capability of delivering valuable decision information to all levels of the Command by providing continuous visibility over our commitment of resources to the DCMC processes. Our current environment of declining resources and increased customer requirements dictates that we keenly focus on how present resources are utilized. To accomplish this, we need to take the data from PLAS and integrate it with other management systems. This is the driving force behind the PLAS Program Management Center.

The PLAS Center mission also includes maintenance of the repository of PLAS information and the responsibility to provide consistent PLAS operational guidance. The Center will be tasked with developing program enhancements, such as a link with our time and attendance and reimbursable reporting systems as well as updates to PLAS coding.

Effective July 1, 1996, the DCMC PLAS Program Manager is Mr. Don Peterson; he can be reached at DSN: 930-6590/6591 or (312) 825-6590/6591 for more information about PLAS Center services. A toll free help line will become operational to expedite questions concerning data base management, PLAS program operation, and reporting instructions.

  
THOMAS E. BRUNK  
Executive Director  
Business Management
